

DIKSHA TEKCHANDANI

Graphic Designer | Frontend Developer
7424800759 | dikshatek1135@gmail.com | Jaipur, Rajasthan

PROFESSIONAL SUMMARY

Final year BCA student specializing in AI at Vivekananda Global University, Jaipur (CGPA: 7.90). Completed a 3-month Graphic Design Internship at Zeepty (e-commerce platform) where I independently designed festive campaigns, brand collaboration creatives, and redesigned app UI screens using Figma and Photoshop. Skilled in HTML and CSS with growing JavaScript knowledge. Passionate about combining visual design thinking with frontend development to create engaging digital experiences.

INTERNSHIP EXPERIENCE

Graphic Design Intern — Zeepty (E-commerce Platform, Remote)

Dec 2025 – Mar 2026

- Independently designed festive campaign banners for Holi, Valentine's Week, and Birthday categories owning visual concept, layout, typography, and colour entirely in Figma.
- Created brand collaboration creatives for partner brands including product showcase posts and category banners, maintaining visual consistency across all assets.
- Redesigned app UI screens including leaderboard and contest result pages, improving visual hierarchy, colour palette, and layout within existing product structure.
- Delivered category-wise e-commerce banners across ethnic wear, beauty, footwear, and streetwear adapting design mood per category audience and consistently meeting deadlines.

PROJECTS

MindJournal: Wellness Insights

HTML, CSS, JavaScript, Node.js,
MongoDB

- Journaling web app with JavaScript-based mood detection that identifies emotional patterns and surfaces early mental health insights with supportive follow-up prompts.
- Currently building it; AI integration and backend planned for completion.

Personal Portfolio Website

HTML, CSS, Figma

- Designing and developing a fully responsive portfolio to showcase graphic design and frontend work.
- UI designed in Figma first then hand-coded using semantic HTML5 and CSS3.

Munchkin — E-commerce Website for Children

HTML, CSS

- Built a children's e-commerce website with a unique new-parent tips and advice section as a value addition.
- Focused on clean visual layout, product listing structure, and basic interactivity.
